# NATIONAL NUTEX (SPRAY TEXTURE)

## PRODUCT DESCRIPTION

National Nutex is an acrylic co-polymer emulsion based, intermediate texture coating for National Acrylic Rock, National Tile & National Eco Systems. It contains high quality inert fine aggregates and gives a weather resistant, flexible decorative high build texture coating. It is specially formulated to absorb the possible shocks of contraction and expansion of the substrate surfaces. It contains anti-fungal and anti-bacterial additives.

## RECOMMENDED USES

As a high build intermediate texture coating for old & new interior/exterior concrete surfaces, plaster, brickwork, masonry work etc. It can also be used as an intermediate texture coat to hide the surface imperfections. It is mostly used as an intermediate texture coat for National Acrylic Rock, National Tile & National Eco Systems. It is always recommended to overcoat with National exterior system. For coloured Nutex it is recommended to overcoat with Nationalthane Varnish or National Acrylic Clear.

ADVANTAGES

NATIONAL NUTEX
Excellent adhesion, weather resistant and anti chalking high build texture, flexible and non-cracking high build texture. It can hide the surface imperfections, as a system it provides long lasting protection to interior and exterior surfaces.

APPLICATION INSTRUCTION

SURFACE PREPARATION
Before application, the surface should be sound, clean and free from oil, grease, loose particles, dust, etc. Application can be done by the recommended application methods.

APPLICATION DATA

APPLICATION METHOD

SYSTEM

RECOMMENDED SYSTEM
To be applied on prepared surface.
National Acrylic Primer (W.B.) : 1 coat
(OR)
National PVA Primer Sealer for Masonry : 1 coat
National Nutex (Spray Texture) : 1 coat
Other National Recommended System : 2 coats

ADDITIONAL DATA

SHELF LIFE @ 30°C
18 months, in original sealed container, with proper storage conditions.
## HEALTH & SAFETY

### SAFETY PRECAUTIONS

Generally, most of the water base paints are quite safe to handle with due precautions. As a general rule, avoid skin and eye contact by wearing overalls, gloves, goggles, and mask etc. Spillage on skin should immediately be removed by thorough washing with water and soap or suitable cleaner. Eye should be flushed with fresh water. Avoid inhalation of vapours and paint mist by wearing suitable mask. In the event of ingestion and eye contact, seek medical attention immediately. Painting must be carried out in well-ventilated area. Local safety regulations to be followed.

## STORAGE & HANDLING

### STORAGE

Store the paint in proper storage conditions as per the local regulations. Keep the paint container in sealed condition under shed, away from direct sunlight and extreme temperatures. Do not stock paint material near to any ignition sources. Do not put back the half or unused material back in original container, containing the supplied paint, to avoid contamination. Handle with care. Stir well before use.
