# NATIONAL SHIELD GLAZE COAT

## PRODUCT DESCRIPTION

National Shield Glaze Coat is a pure acrylic, water based product with special additives for protection and having excellent water resistance and water repellent properties. It has excellent adhesion and weather resistances over various coatings with very low dirt pick-up property. It adds richness of the base coat and creates artistic matt or silky antique effects with ancient elegant look, especially on National Shield Long Life range of products. It contains anti fungal and anti bacterial additives.

## RECOMMENDED USES

Mostly recommended to use as a color wash on National Shield Long life range of products. It is highly recommended as an overcoat color wash applications for museums, galleries, villas, and other prestigious buildings to give an ancient but elegant, traditional or antique look. It can be used, to decorate and protect old and new painted surfaces. As an over coating clear it prevents the dust collection on the surfaces especially on textured and grooved finishes. It improves the protection and durability of the system.

Application Data

Application Method

Roller, Brush, Spray, Sponge, Cloth

Cleaning/Thinning

Water

Thinner (Volume)

Water, 10 – 20% depends on application

Conv. Spray Requirements

Possible

System

Recommended System

National Shield Glaze Coat : 1 – 2 coats

Note:

Apply the Shield Glaze Coat on National recommended System.

Additional Data

Shelf Life @ 30°C

12 months, in original sealed container, with proper storage conditions.
HEALTH & SAFETY

SAFETY PRECAUTIONS

Generally, most of the water base paints are quite safe to handle with due precautions. As a general rule, avoid skin and eye contact by wearing overalls, gloves, goggles, and mask etc. Spillage on skin should immediately be removed by thorough washing with water and soap or suitable cleaner. Eye should be flushed with fresh water. Avoid inhalation of vapors and paint mist by wearing suitable mask. In the event of ingestion and eye contact, seek medical attention immediately. Painting must be carried out in well-ventilated area. Local safety regulations to be followed.

STORAGE & HANDLING

STORAGE

Store the paint in proper storage conditions as per the local regulations. Keep the paint container in sealed condition under shed, away from direct sunlight and extreme temperatures. Do not keep paint material near to any ignition sources. Do not put back the half or unused material back in original container, containing the supplied paint, to avoid contamination. Handle with care. Stir well before use.
