NATIONAL SYNTHETIC ENAMEL GLOSS II

PRODUCT DESCRIPTION
It is a fast drying synthetic enamel paint based on modified high quality alkyd resin for protection to interior/exterior surfaces applications. It dries to give a tough, flexible and high gloss finish with very good adhesion and durability. It is resistant to cracks and withstands abrasion.

RECOMMENDED USES
It is recommended as a fast drying protective coating for interior/exterior surfaces like metal, wood, etc. It is also suitable for painting heavy equipments, vehicle repaint, super structures, cranes, bridges, pipeline etc. in mild industrial environments. It has an excellent opacity and hides minor surface imperfections. It is used for only air-drying purpose.

DRYING TIME
Drying time @ 30°C (Temperature, humidity, air movement, film thickness and number of coats all affect the drying time.)

| TOUCH DRY | 2 – 3 hours |
| *DRY TO RECOAT/OVER COAT | 8 – 10 hours |
| HARD DRY | 24 hours |

*With same generic type paint.

ADVANTAGES

NATIONAL SYNTHETIC ENAMEL GLOSS II
High gloss, resistant to cracks and withstands abrasions, very good washability for easy cleaning, tough and flexible film, very good adhesion and durability, excellent opacity, fast drying.
APPLICATION INSTRUCTION

SURFACE PREPARATION

It can be applied directly over intermediate coat or primed substrate. Galvanized steel, aluminium and other light metal alloys should be etched or wash primed before primer and undercoat application.

APPLICATION DATA

APPLICATION METHOD

Brush, Roller, Spray etc.

CLEANING/THINNING

National GP Thinner

THINNER (VOLUME)

5-10% depends on method of application

CONV. SPRAY REQUIREMENTS

Atomizing pressure: 50 psi

AIRLESS SPRAY REQUIREMENTS

Pressure: 2000 – 2200 psi

NOZZLE SIZE

0.018” – 0.020”

MIXING RATIO (BY VOLUME)

One pack

POT LIFE @ 30°C (100 ml)

Not applicable

SYSTEM

RECOMMENDED SYSTEM

To be applied on prepared surface.
(For non-ferrous metal surfaces use suitable primer, prior to topcoat application.)

ADDITIONAL DATA

SHELF LIFE @ 30°C

18 months, in original sealed container, with proper storage conditions.

HEALTH & SAFETY

SAFETY PRECAUTIONS

As a general rule, avoid skin and eye contact by wearing overalls, gloves, goggles, and airmask etc. Spillage on skin should immediately be removed by thorough washing with water and soap or suitable cleaner. Eye should be flushed with fresh water. Avoid inhalation of vapours and paint mist by wearing suitable airmask. In the event of ingestion and eye contact, seek medical attention immediately. Painting must be carried out in well-ventilated area.

This as industrial product, contains flammable materials and should be kept away from the sparks and open flames, smoking in the area should not be permitted. Local safety regulations should be followed.
STORAGE & HANDLING

| STORAGE | Store the paint in proper storage conditions as per the local regulations. Keep the paint container in sealed condition under shed, away from direct sunlight and extreme temperatures. Do not stock paint material near to any ignition sources. Do not put back the half or unused material back in original container, containing the supplied paint, to avoid contamination. Handle with care. Stir well before use. |
